Summer Training

Hands on approach to Data Science **July 2025**
Lovely Professional University

- Developed an **end-to-end California House Price Prediction model** using machine learning techniques to estimate housing prices accurately
- Performed **Data Preprocessing**, **Feature Engineering**, and **Exploratory Data Analysis (EDA)** to identify key factors influencing price trends
- Built and evaluated **Regression Models** using **Scikit-learn**, applying **model selection** and **performance evaluation techniques** to improve prediction accuracy
- Designed **interactive dashboards** in **Power BI** to visualize housing trends and support **data-driven decision making**
- Utilized **Data Visualization** techniques with **Matplotlib** to extract insights and effectively communicate analytical findings

Projects

PMGSY Road Project Completion & Risk Management | *Power BI, DAX, Matplotlib, Scikit-learn* **November 2025**

- Performed Data Cleaning, Preprocessing, and **Exploratory Data Analysis (EDA)** on real-world PMGSY dataset to analyze rural road infrastructure
- Developed **interactive Power BI dashboards** using **DAX** to visualize road completion %, expenditure utilization, and state-wise insights
- Applied Data Analysis techniques to identify regional disparities, cost variations, and execution inefficiencies
- Built ML models **(Random Forest, Logistic Regression, KNN)** achieving strong performance **($R^2 \approx 0.99$, accuracy up to 99%)** and validated using **cross-validation** to ensure reliability
- GitHub: **https://github.com/Hasith789/PMGSY**

Diwali Sales Analysis | GitHub | *Python, Pandas, NumPy, Matplotlib, Seaborn* **February 2025**

- Performed **Exploratory Data Analysis (EDA)** on Diwali sales data using Python, Pandas, and NumPy to identify customer purchasing behavior and sales trends.
- Conducted **data cleaning, data preprocessing, and statistical analysis** to evaluate customer demographics, product category performance, and regional sales patterns.
- Created **data visualizations** and analytical reports using Matplotlib and Seaborn to uncover key insights including high-value customer segments and top-performing product categories
- GitHub: **https://github.com/Hasith789/Diwali_Sales_Analysis**

Certifications

Oracle Certified Foundations Associate **February 2026**
Oracle — Certificate Link

Data Analytics **June 2025**
Deloitte — Certificate Link

Technical Skills

Languages C++, Java, Python, C

Technologies/Frameworks: NumPy, Pandas, Seaborn, Matplotlib, Scikit-learn, GitHub, Ubuntu

Tools/Platforms: MySQL, Power BI, Excel

Skills: Data Structures and Algorithms, Data Analytics, Problem-Solving, Data Visualization, Machine Learning

Education

Lovely Professional University Punjab **2023 – 2027**
Computer Science and Engineering — CGPA: 7.93 *Jalandhar, Punjab*

Sri Chaitanya Junior College **2021 – 2023**
Intermediate — Percentage: 95.1 *Eluru, Andhra Pradesh*

Baba High School **2020 – 2021**
Secondary School Education — Percentage: 98 *Dharmajigudem, Andhra Pradesh*
